My signature indicates that I am willing to participate in the IWM service as described in the IWM brochure and detailed in the USDA-NRCS Specification 449A. If Intermediate Level or Advanced Level is specified above, I will purchase and install the necessary equipment prior to the anticipated crop emergent date. I also will relay the necessary field data at specified intervals to ensure that I receive effective SWCDM/NRCS feedback on soil moisture management during the growing season. No refunds after 15<sup>th</sup> June of the irrigation season.
